**Head of School:** Mrs C. Goodwin

Tuesday 8<sup>th</sup> February 2022

Dear Parents/Carers

## British Science Week – 14<sup>th</sup>-18<sup>th</sup> March

The theme of this year's British Science Week is **Growth**.

**Growth** is all around us and plays an important in many areas of science. We will be spending the week participating in a range of activities that look at growth from different viewpoints. If you would like to continue this learning at home you can visit <https://www.britishscienceweek.org/> where you will find a variety of fun, low-cost activities.

To introduce the topic we are inviting the children to **dress up** as the job they want to be when they grow up; this does not have to involve science. This will take place on **Monday 14<sup>th</sup> March**.

As well as classroom based activities, we are delighted to say that we have managed to book the incredible science show-man, **Ian B Dunne**, who joined us virtually last year, for a whole day of interactive workshops based around Growth. These will take place on **Wednesday 16<sup>th</sup> March**.

We are asking for a voluntary donation of up to £5 per child to help make this week as exciting and action-packed as possible. This can be paid via gateway.

We hope that the children enjoy the week, filled with activities to enhance their awareness of the scientific world around them.

Kind Regards

Miss Hyde

Science Coordinator
